

OPERATION HAGEN

**THE MYSTERY OF THE NAZI NUCLEAR
PROJECT WHICH COULD HAVE CHANGED
THE WORLD WAR II**

An exciting WWII military adventure novel based of real characters and close-to-real facts: Hitler atomic bomb plans and the development of his advanced weapons program.

Operation Hagen is the unofficial history of the German nuclear project, Hitler's atomic weapons strategy, the secret team, their secret weapons and training, and the atomic tests in the Baltic and bombing of Tunguska.

This is the exciting history of a truth silenced by the winners, the heroic deed of a group of men and of a suicide mission with an only aim: to change the course of the World War II and modern history.

Why to read it?

-Current interest: this carefully documented novel coincides

with the year of the 60th anniversary of the end of the World War II and the facts narrated in the novel.

-Topic of interest: Titles based and set in the World War II always generate great interest.

-Novelty: Highly documented. Full of accurate military details for the delight of WWII fans. Very illustrated (yes!, a novel with illustrations !) displaying characters, locations, weaponry, maps,... (Most true documents, some "fiction")

-Polemic: In spite of being fiction, Hagen operation offers

data for the analysis which question the American nuclear project and the vision about some aspects of war that the winners imposed.
