

DEPRAVED HUMAN BEINGS THE DARK WORLD OF SERIOUS KILLERS

Janire Rámila

Learn all the keys to recognizing them: where, when, and how they act, how they think, who are their potential victims and how and why are they chosen, etc. Discover how they act before, during and after a murder

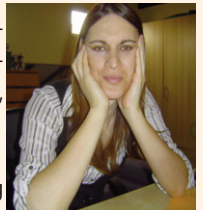

Synopsis

This book presents a detailed analysis of serial killers. How do their brains work, with respect to both the crimes that they commit and how they go about their daily lives? How do they act? Why is it so difficult to identify them?

All of these questions are addressed by an expert in criminology who introduces us to this dark world filled with sordid violence – a world of serial murderer, their victims and the professionals (police, psychologists, crime scene investigators, etc.) that track the killers.

Biography

Janire Rámila (San Sebastián, Guipúzcoa, 1974) has a degree in criminology from the Instituto Vasco de Criminología (Basque Institute of Criminology), a degree in law from the University of País Vasco (Basque Country), and a degree in information sciences from the University of Navarra.

She has written numerous articles for various media publications including *Muy Historia*.

Did you know that...

... a serial murderer commits his first murders almost always close to home, what the police call "comfort zone"?

... you may recognize a psychopath in our midst if known observe their daily behavior?

... there is no serial murderer who has been arrested before they commit at least three murders?

... nobody knows what to do with a serial murderer when he goes our prison despite knowing that most likely he 'll kill again?

... psychopaths feel no remorse or shame for their crimes?

... there are also women who are serial killer?
