## Historical essay

## Eladio Romero and Iván Romero

Discover the ethnic wars between the villages that were a part of former Yugoslavia and that at the end of the XX century caused violent confrontations between Serbians, Croats and Albanians. The most bloody conflicts in European grounds since the Second World War.

### Synopsis

Get to know the historic precedents and the development of all conflicts that rose up during the Yugoslavian socialist republic in 1991, as well as its consequences and the actual situation in the various countries that were born after its dissolution: Slovenia, Croatia, Bosnia and Herzegovina, Serbia, Montenegro and Macedonia.

Thanks to *Breve historia de las guerras de los Balcanes* you will get closer to several extremely cruel conflicts, that were characterised for the massive practice of torture, murder, rape, jailing in prisoner camps, and the racial purity taken place to eliminate the members of the opposing ethnics, during too frequent episodes that hadn't occurred in Europe since the Second World War.

Together with Eladio Romero e Iván Romero, great experts in the topic, you will discover in a rigorous and joyful way, why a series of communities with strong cultural and religious differences, were able to live together peacefully for forty five years, and how in about two to three years they ended up fighting in a series of cruel wars, with the intention of turning themselves into ethnically pure, and politically independent entities.

### Sales pitch

-This Breve Historia is the only monograph that offers a complete informational essay in Spanish about the Yugoslavian wars. In addition to having used Spanish and foreign bibliographies, one of the authors visited Croatia just a bit after the conflict. Thanks to this, the reader is provided with a first hand view about the real consequences of this confrontation, both in the various towns and the civil population.

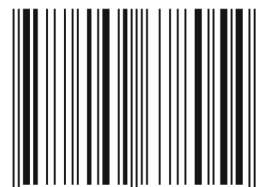

-The importance of this book is based on the fact that this conflict was the most bloody confrontation in Europe since the Second World War; the first international conflict that was retransmitted live around the world and considered the last greatest European war.

-The book includes a large amount of graphic material, such as hardly known pictures, anecdotes and charts that explain the involvement of some spaniards in the conflict (UNPROFOR, Javier Solana, at that time secretary of the OTAN, José María Mendiluce, from ACNUR in Bosnia...)

-This book will be liked by History lovers and enthusiasts as it helps understand the complex historic framework that the conflict caused, as well as by the military history fans, as the authors have developed very detailed descriptions of the military operations that took place.
