Miguel Ángel Novillo López

The exciting history of the greatest civilization of the ancient world, which laid the foundations of Western civilization; since the formation of the primitive Rome and the until the fall of the Empire. Its culture, its protagonists and its key episodes. A newly and masterful synthesis based on recent archaeological discoveries

Synopsis

The work narrates with scientific rigour and informative tone the complete history of Rome, avoiding academic formalism, in order to be accessible to the widest readership. It seeks to enthusiasm and interest the reader by addressing the more unknown or distorted issues about the Roman civilization.

The only book in Spanish inside the market, that synthesizes masterfully and from various angles the History of Rome, according to the latest research, and with an original and innovative view of it.

It includes practical documentary annexes where archaeological, epigraphic, numismatists, artistic and literary materials are displayed, together with maps, planimetry, genealogies, chronologies, glossaries, and maps of content on the most relevant aspects of the Roman civilization (evolution of slavery, Patrician-Plebeian conflict, courts and assemblies, dynasties and emperors, religion, currency, art or Roman engineering). There is a great part of the collected documents which had not been published before.
