Historical essay

Luis E. Íñigo Fernández

A complete history of the culture of science fiction in literature, film, television and video games. Starting from Mary Shelley, Julio Verne, H.G. Wells, H.P. Lovecraft, Isaac Asimov and Arthur C. Clarke, right up to Star Wars, Blade Runner, the cyberpunk or the steampunk genre. From the fantastic journey, the intelligent machines, the alternative societies and dystopias, reaching also robots and superheroes.

Synopsis

Learn about science fiction, an unknown genre that, despite being considered by many as secondary, it has reappeared in recent years creating a new crowd of followers, creators, literary works, cinematographic sagas, TV series, comics and video games.

Brief history of Science Fiction will guide the reader through a thorough tour of this genre, beginning with its distant background by the Sumerian Gilgamesh, the Christian Bible or the Egyptian Book of the Dead, through to its forefathers Julio Verne and H. G. Wells, the real parents of a different way of writing. The path of the book lead the reader through the genre's transformation into an American phenomenon of the 20th century, allegedly invented by Hugo Gernsback, with the appearance of magazines such as *Astounding Stories*, laws of Robotics in Asimov, the emergence of great films that marked a turning point as *The Andromeda Strain*, *Close Encounters of the Third Kind*, or *Star Wars*, the experimentation and new subgenres as cyberpunk, or steampunk, as well as the philosophical Sci-Fi, psychological, feminism or the dystopias.

Luis E. Íñigo Fernández will guide the reader in the discovery of this cultural trend through film and literature reflecting on the human condition, and his destiny in the distant future. The author will show the reader a reflection of the historical context of the time, and give the reader some recommendations of the best examples that will help with the immersion in this genre and provide deep knowledge.
